Machu Pichu Exhibit & Lunch at The Yard House

This all-new, immersive museum experience will transport you to the jewel of the only cradle of civilization in the Southern Hemisphere, the Incan city of Machu Picchu. You will walk among a stunning selection of 192 artifacts from royal tombs that include spectacular objects that belonged to noble Andean lords. Here you will plunge into the Amazon rainforest and come face-to-face with one of the most impressive collections of gold treasures to ever tour the world.

Before our explorations at the museum we'll stop for a leisurely lunch at The Yard House in Boca Raton. Located in the luxurious Mizner Park shopping complex The Yard House offers New American cuisine and "the largest draft beer collection in the world". Menu choices to be announced.
